

INSTRUMENTS TO SHAPE PUBLIC SPACE

CARE & MAINTENANCE

GENERAL

Regular inspection and maintenance of all parts and fasteners is necessary. Tighten all bolts and nuts. Inspect tops, seats, legs, braces and fasteners periodically for wear or vandalism. Replace broken or worn parts immediately or take equipment out of service until repairs are made. Use genuine Urbanscape replacement parts.

POWDER-COATED FINISHES

Over time, your Urbanscape product will need to be inspected and maintained for nicks, scratches, etc. Urbanscape can provide touch-up material for all powder-coated finishes (call our sales department at 866-903-3714). Simply apply the touch-up to small affected areas. Larger nicks may require sanding, cleaning of the area and an application of a rust inhibiting paint in preparation for the touch-up.

For cleaning your powder-coated finish, we suggest using a mild detergent and soft cloth to avoid scratching.

FAUX-WOOD FINISHES

Like our powder-coated finish, the faux-wood finish will need periodic inspections and maintenance. Urbanscape offers a repair kit for such instances. Please contact our sales or customer service department for more information.

Please follow the same instructions for cleaning as under our powder-coated finishes.
